

Presentation of Simona Chiusolo, a PhD student from University of Pisa

Contact details: simona.chiusolo@phd.unipi.it

Brief presentation:

Dr. Simona Chiusolo is a cardiologist and PhD candidate in Clinical Pathophysiology at the University of Pisa, focusing on thrombotic cardiovascular diseases and personalized medicine. She combines clinical expertise with translational research, integrating advanced data analysis and AI-based approaches to improve cardiovascular risk prediction. She is also a Commissioning Editor for Heart (BMJ Group) and an Advanced Life Support Instructor with the Italian Resuscitation Council. Her work is driven by a strong commitment to innovation, scientific rigor, and patient-centered care.
